SUMMARY

Motivated Bachelor's graduate with a strong foundation in front-end web development. Proficient in HTML, CSS, JavaScript, Bootstrap, and ReactJS, skilled in building dynamic, responsive applications. Adaptable team player with problem-solving abilities, eager to apply knowledge in a professional setting.

PROJECTS

Text to Sign Language Conversion

- Developed the Frontend for a Text-to-Sign Language Conversion Tool – Built an interactive web application that translates text into animated sign language, enhancing accessibility for the hearing impaired.
- Technologies Used: ReactJS, HTML, CSS, JavaScript – Designed a responsive and dynamic UI for seamless user interaction.
- Focus on Accessibility: Ensured an inclusive user experience by implementing a visually intuitive and user-friendly interface.
